DELACRUZ KRISTOPHER

Grimm's Fairy Tales
Bloomsbury Publishing
Today's parents are increasingly replacing nursery rhymes with the latest pop songs, and fairy tales - now thought too scary for little ones - with cute stories about farmyard animals and talking trains. Until recently, weird tales of fairy curses and flesh-eating ogres were considered suitable bedtime reading. And the strange-sounding and sometimes violent rhymes we learned by rote were often taught to us in school. But have you ever asked yourself what on earth they were about? And what exactly were

the morals and lessons we were meant to learn from them? Here Comes a Chopper to Chop Off Your Head delves into the origins of the best-known rhymes and tales to uncover a legacy of folk superstition, rotten royal families, execution, child marriage, cannibalism, and the multitude of other random acts of cruelty that make up any classic treasury. You'll learn about the bloody history of Mary, Mary, Quite Contrary; why Margery Daw, the subject of an innocent-seeming seesaw game, was accused of being a 'dirty slut'; and how pretending to decapitate your little friends to the tune of Oranges and Lemons became an acceptable pastime. You'll also find out about the terrifying events that befell the first

Sleeping Beauty when she finally woke up; how Snow White's stepmother really died; and just who the wolf was in Little Red Riding Hood.

Selected Tales Shambhala Publications

Illustrated with modern, evocative paintings, a sumptuous interpretation of the classic Grimms' fairy tale finds two very different but loving sisters sharing a peaceful existence in a woodland cottage before rescuing an enchanted prince.

fantasy series *A Song of*

Ice and Fire is unique for its strong and multi-faceted female protagonists, from teen queen Daenerys, scheming Queen Cersei, child avenger Arya, knight Brienne, Red Witch Melisandre, and many more. The Game of Thrones universe challenges, exploits, yet also changes how we think of women and gender, not only in fantasy, but in Western culture in general. Divided into three sections addressing questions of adaptation from novel to television, female characters, and politics and female audience engagement within the GoT universe, the interdisciplinary and international lineup of contributors analyze gender in relation to female characters and topics such as genre, sex, violence, adaptation, as well as fan reviews. The genre of fantasy was once considered a primarily male territory with male heroes. Women of Ice and Fire shows how the GoT universe challenges, exploits, and reimagines gender and why it holds strong appeal to female readers, audiences, and online participants. *Here Comes A Chopper to Chop Off Your Head - The*

Dark Side of Childhood Rhymes & Stories ABC-CLIO
From a lost city in the desert to a cave alight with thousands of glowworms, learn about some of the most unusual places on earth and the myths, legends, and history behind each of them! Looking at places like The Skeleton Coast in Namibia, Wizard Island in the United States, and The Fairy Tale Route in Germany, *The Dark Hedges and Other Magical Places that Really Exist* takes young readers on a journey around the world to real places that sound straight out of fantasy. Featuring both natural and man-made wonders, this travel book combines history and storytelling to explore the far reaches of the earth.

Bloomsbury Publishing USA

Fairy tales are supposed to be magical, surprising, and exhilarating, an enchanting counterpoint to everyday life that nonetheless helps us understand and deal with the anxieties of that life. Today, however, fairy tales are far from marvelous—in the hands of Hollywood, they have been stripped of their power, offering little but formulaic narratives and tame surprises. If we want to rediscover the power of fairy tales—as Armando Maggi thinks we should—we need to discover a new mythic lens, a new way of approaching and understanding, and thus re-creating, the transformative potential of these stories. In *Preserving the Spell*, Maggi argues that the first step is to understand the history of the various traditions of oral and written narrative that together created the fairy

tales we know today. He begins his exploration with the ur-text of European fairy tales, Giambattista Basile's *The Tale of Tales*, then traces its path through later Italian, French, English, and German traditions, with particular emphasis on the Grimm Brothers' adaptations of the tales, which are included in the first-ever English translation in an appendix. Carrying his story into the twentieth century, Maggi mounts a powerful argument for freeing fairy tales from their bland contemporary forms, and reinvigorating our belief that we still can find new, powerfully transformative ways of telling these stories. [Gender, Game of Thrones and Multiple Media Engagements](#) Taschen America Llc
A new translation of 239 fairy tales collected by the Brothers Grimm. Also includes a listing of their oral and/or literary sources.

Retelling Cinderella
Capstone

The Fairy Tale World is a definitive volume on this ever-evolving field. The book draws on recent critical attention, contesting romantic ideas about timeless tales of good and evil, and

arguing that fairy tales are culturally astute narratives that reflect the historical and material circumstances of the societies in which they are produced. *The Fairy Tale World* takes a uniquely global perspective and broadens the international, cultural, and critical scope of fairy-tale studies. Throughout the five parts, the volume challenges the previously Eurocentric focus of fairy-tale studies, with contributors looking at:

- the contrast between traditional, canonical fairy tales and more modern reinterpretations;
- responses to the fairy tale around the world, including works from every continent;
- applications of the fairy tale in diverse media, from oral tradition to the commercialized films of Hollywood and Bollywood;
- debates concerning the global and local ownership of fairy tales, and the impact the digital age and an exponentially globalized world have on traditional narratives;
- the fairy tale as told through art, dance, theatre, fan fiction, and film. This volume brings together a selection of the most respected voices in the field, offering groundbreaking analysis of the

fairy tale in relation to ethnicity, colonialism, feminism, disability, sexuality, the environment, and class. An indispensable resource for students and scholars alike, *The Fairy Tale World* seeks to discover how such a traditional area of literature has remained so enduringly relevant in the modern world.

This new translation offers

a more representative

selection of the Grimms' tales by including fables and morality tales as well as all the best known 'fairy' tales. It faithfully conveys the Grimms' own texts and provides a wealth of information about the origins of the stories, their literary evolution at the hands of the Grimms, with examples of earlier versions and stories that were omitted as being unsuitable for children.

literary fairy tales and critical commentaries currently available. Students love it." —Lita Barrie, California State University, Los Angeles

This Norton Critical Edition includes:

- Seven different tale types: "Little Red Riding Hood," "Beauty and the Beast," "Snow White," "Sleeping Beauty," "Cinderella," "Bluebeard," and "Tricksters." These groupings include multicultural versions, literary rescriptings, and introductions and annotations by Maria Tatar.
- Tales by Hans Christian Andersen and Oscar Wilde.
- More than fifteen critical essays exploring the various aspects of fairy tales. New to the Second Edition are interpretations by Ernst Bloch, Walter Benjamin, Max Lüthi, Lewis Hyde, Jessica Tiffin, and Hans-Jörg Uther.
- A revised and updated Selected Bibliography.

The Complete Fairy Tales of the Brothers Grimm
 Bloomsbury Publishing

While most scholars who study children's books are pre-occupied with the child characters and adult mediators, Vanessa Joosen re-positions the lens to focus on the under-explored construction of adulthood

in children's literature. Adulthood in Children's Literature demonstrates how books for young readers evoke adulthood as a stage in life, enacted by adult characters, and in relationship with the construction of childhood. Employing age studies as a framework for analysis, this book covers a range of English and Dutch children's books published from 1970 to the present. Calling upon critical voices like Elisabeth Young-Bruehl, Margaret Morganroth Gullette, Peter Hollindale, Maria Nikolajeva and Lorraine Green, and the works of such authors as Babette Cole, Philip Pullman, Ted van Lieshout, Jacqueline Wilson, Salman Rushdie and Guus Kuijer, Joosen offers a fresh perspective on children's literature by focusing not on the child but the adult.

147 Traditional Stories for Primary School Children to Retell.

Bloomsbury Publishing

Young fashionista Milly is excited to compete in a design contest, so when a strange custodian appears with an offer to help she accepts, but is wary of the catch: she must guess the mysterious person's favorite thing to wear or give up the first-place

prize.

Fairy Tales Balzer + Bray

Perrault's fairy tales in a scintillating new translation, including the less familiar verse tales and with illustrations by Gustave Doré. The introduction explores the imaginative power of the stories and the many interpretations to which they have been subject.

Mastering Fear BRILL

A Jungian psychologist explains how careful analyses of fairy tales like "Beauty and the Beast" can lead to a better understanding of human psychology

Of the various types of mythological literature, fairy tales are the simplest and purest expressions of the collective unconscious and thus offer the clearest understanding of the basic patterns of the human psyche. Every people or nation has its own way of experiencing this psychic reality, and so a study of the world's fairy tales yields a wealth of insights into the archetypal experiences of humankind. Perhaps the foremost authority on the psychological interpretation of fairy tales is Marie-Louise vonFranz. In this book—originally published as *An Introduction to the*

Interpretation of Fairy Tales —she describes the steps involved in analyzing and illustrates them with a variety of European tales, from "Beauty and the Beast" to "The Robber Bridegroom." Dr. von Franz begins with a history of the study of fairy tales and the various theories of interpretation. By way of illustration she presents a detailed examination of a simple Grimm's tale, "The Three Feathers," followed by a comprehensive discussion of motifs related to Jung's concept of the shadow, the anima, and the animus. This revised edition has been corrected and updated by the author.

Re-imagining Biblical Animals W. W. Norton & Company

The Hebrew Bible is filled with animals. Snakes and

ravens share meals with people; donkeys and sheep work alongside us; eagles and lions inspire us; locusts warn us. How should we read their stories? What can they teach us about ecology, spirituality, and ethics? Author Laura Duhan-Kaplan explores these questions, weaving together biology, Kabbalah, rabbinic midrash, Indigenous wisdom, modern literary methods, and personal experiences. She re-imagines Jacob's sheep as family, Balaam's donkey as a spiritual director, Eve's snake as a misguided helper. Finally, Rabbi Laura invites metaphorical eagles, locusts, and mother bears to help us see anew, confront human violence, and raise children who live peacefully on the

land.

Adulthood in Children's Literature University of Chicago Press

Join in the adventure and escape by coloring the lines of the world's most recognizable characters. From Red Riding Hood to Cinderella, Little Mermaid to Robyn Hood, and OZ to Wonderland. Let your brain focus on creating great pieces of artwork while relieving the stress of everyday life.
